

LESS PAIN.

MORE LIVING.

## FREEDOM STIMULATORS

Stimwave offers two types of neurostimulator devices. Both the **Peripheral Nerve Stimulator (PNS)** and **Spinal Cord Stimulator (SCS)** relieve pain by sending electrical stimulation to specific nerve locations where the pain is present and then blocks those pain signals from reaching the brain. The **PNS System** treats chronic intractable pain by targeting individual nerves throughout your body, while the **SCS System** is used to treat chronic intractable pain typically associated with your back and legs.

Full Body MRI-Conditional. Use under specific product and conditions for both 1.5T and 3T MRI scans. Refer to product labeling for complete list of conditions. Indications for Use. The Freedom Stimulator System is intended as the sole mitigating agent, or as an adjunct to other modes of therapy used in a multidisciplinary approach for chronic, intractable pain of the trunk and/or lower limbs, including unilateral or bilateral pain. The Freedom Stimulators are contraindicated for patients who are unable to operate the Freedom Stimulator System, are poor surgical risks, are pregnant, have an occupational exposure to high non-ionizing radiation, are implanted with a cardiac system, or diathermy. Refer to the Instructions for Use provided with the Freedom Stimulator System or [Stimwavefreedom.com](http://Stimwavefreedom.com) for potential adverse effects, warnings, and precautions prior to using this product. Rx Only. Caution: Applicable law restricts these devices to sale by or on the order of a physician. Wireless Pain Relief® is a registered trademark of Stimwave.

# IS STIMWAVE RIGHT FOR YOU?

## FREEDOM STIMULATORS OFFER:

- + FDA cleared and CE approved systems for chronic intractable pain
- + Full body, targeted pain relief
  - + A non-drug therapy option
- + Minimally-invasive technology
  - + Single stage procedure
- + Reduced risk of complications
  - + No battery implanted inside of your body
- + External power transmitter eliminates sitting while charging
- + Systems that are full-body 3T and 1.5T MRI Conditional

COLLECTIVELY, WE WORK TOGETHER.  
PATIENTS, PHYSICIANS & STIMWAVE.
